Instructions

- 1.- Before beginning the installation, please read all directions carefully and verify that all necessary hardware is accounted for. If any parts are missing, stop the installation and contact your distributor immediately.
 - 2.- To maintain and care this product keep it clean and do not use abrasive cleaners or polish waxes. We recommend to use only non-abrasive automotive wax such as pure carnauba to avoid scratches and rust.
 - 3.- The approximate installation time is 45 min.
 - 4.- To install front, middle and rear mounting brackets locate in the rocker panel the holes covered in tape and remove the tape. Place one vinyl gasket to the bolt of the mounting bracket then insert into the exposed hole. **SEE PICTURE 1 & 2.**
- NOTE 1: It is important to place vinyl gaskets to the bolts to prevent the mounting bracket from falling into the rocker panel.**

PICTURE 1.

In this part, install each of the passenger side bracket.

ILLUSTRATION 1.

PICTURE 2.

5.- To attach the front and middle bracket, attach to the bolt on the mounting bracket that went in by vehicle panel with: 3/8" flat and lock washer, 3/8" hex nut. And the nut on the mounting bracket with: 3/8 x 1" hex head bolt, 3/8" flat and lock washer. **SEE ILLUSTRATION 2.** Leave loose.
